What is the Student Learning Plan?

The FCPS graduate will engage in the lifelong pursuit of academic knowledge and interdisciplinary learning by being a communicator, collaborator, global citizen, creative and critical thinker, and goal-directed resilient individual. The Student Learning Plan (SLP) is a tool for your child to use for planning their future by exploring college and career options.

What can your child do in Family Connection?

The SLP is created and stored electronically in Family Connection. Your child will go through Blackboard to access Family Connection, and parents go through their Blackboard Parent View to access their child’s account. Your child can write goals and action plans, research careers, add accomplishments and activities into a resume builder, search colleges, and develop plans of study for high school by using this tool. In high school, your child can also request transcripts and recommendations for college applications in Family Connection.

Success is a Group Effort

Family Connection allows your child to use planning tools that connect goals with their future plans. This tool lets your child personalize their action plans. As a parent or guardian, how can you help your child succeed? You can encourage your child to set goals and support them in their action plans to reach those goals. You can talk to your child about their strengths and interests and results on their career surveys. You can discuss their progress on their Student Learning Plan. You can coach and guide your child to assist them in making appropriate decisions about college and careers.
