The Wii Shop Channel

Bored with the games you’ve beaten, and nothing good is coming out soon? Visit the Wii Shop Channel. The Wii Shop Channel offers you games for $5 to $10. The cool thing about these games is that they’re all retro games that made their debut back in the 80’s and 90’s.

These games include -

- Sonic the Hedgehog
- My Life as a King
- The Original Super Mario Bros.
