**Math Message**
Hello Lynbrook families from your friendly Math Resource Coaching specialists. Our names are Anna Manora and Anthony Ramakis, and we are excited to be supporting the mathematics at Lynbrook. We look forward to hands-on learning and real life problem solving with the students and teachers.

Every classroom will host a daily Math Workshop for students to demonstrate their understanding through language, writing, and variety of mathematical tools.

Parents are an essential part of every student's school experience, and we look forward to sharing some easy and effective ways for you to share in the mathematics learning with your child every day.

**Technology Tips**
Have you looked at the Lynbrook web site lately? Be sure to keep an eye on it because we are adding more information all the time. Soon you will find information about each of our grade levels as well as all of our programs. All papers sent home in Wednesday folders will be found online as well starting this year. Have a look!

**Principal’s Corner**
We are excited to begin another school year. This summer has been spent hiring new staff members, improving the appearance of our front office, and reorganizing our cafeteria to prepare for the return of our students. Our staff has also developed a new mission statement or goal for our school.

At Lynbrook, we are respective problem solvers who
- Communicate
- Collaborate and
- Care about ourselves, our environment and others.

Over the next few weeks, our students will learn more about this mission statement and how what they learn each day will help them to meet this goal. We are excited to have you join us for the upcoming back to school night where we will share with you our plans for instruction and how we can partner together to ensure your child has a fantastic school year.

**Introducing our New Counselors**

My name is Mrs. Coleman and I am very excited to be joining the Lynbrook team as your school counselor. I am new to Fairfax County and recently moved here with my family from Charlottesville, Virginia. I have five years school counseling experience and love working with elementary school aged children. When I am not at Lynbrook, I enjoy spending time with my husband, three year old boy/girl twins, and seven year old daughter. In addition, I love to travel and try new foods! Please feel free to stop by my office any time. I can also be contacted via email at scoleman@fcps.edu and by phone at 703-866-7675.

Hi! My name is Ms. Lee and I am so excited to be here and working with all of you in the Lynbrook community. This is my first year as a school counselor and I am looking forward to what this new school year has to bring! I graduated from FCPS in 2006 and received educational training at Marymount University and University of Maryland. Outside of Lynbrook, I enjoy spending time with family/ friends, traveling, and watching movies! You can contact me via email: aslee2@fcps.edu or Phone: 703-866-2963.
