Math Message

Lynbrook is excited to share that every student in our school has received a membership to the website Dreambox Learning! Dreambox is an online math program for students to log-in, solve interactive math problems, and earn coins to play fun math games and improve their math skills. Dreambox as adaptive learning technology that responds to each individual child’s mathematics strengths and areas for growth – challenging students when they’ve met learning goals, and reteaching skills when necessary as students are learning new topics.

Every student will have an active Dreambox membership through the month of August, so students can log in at home as often and as long as they want for the remainder of the school year and over the entire summer. This is a great opportunity for our Lynbrook families to see what types of math tasks, tools, and strategies students are using to learn our curriculum – and for our students to teach their parents about their math understanding. We look forward to sharing more updates with you as our year continues, if you have questions please contact your child’s classroom teacher. Log in and enjoy!

Principal's Corner

This spring a random sample of Lynbrook parents will receive the Parent Opinion Survey. This survey is part of the Performance Evaluation Program and offers Lynbrook parents an opportunity to provide anonymous input about various issues related to our school. These issues include instructional leadership, school climate, human resources management, organizational management, communication and community relations and professionalism.

The survey will arrive in the mail in early March 2016 and will be returned directly to the Fairfax County Public Schools’ Office of Student Testing for processing. If you receive a copy of the Parent Opinion Survey, please take a few minutes to complete and return the survey in the postage paid envelope provided with your survey. Your opinions matter and I appreciate your time and input.

Sincerely,
Jay Nocco, Principal

Counselors' Corner

February has really flown by! We cannot believe spring is almost here. The School Counseling department has been busy in classrooms, small groups, and meeting with individual students daily.

Our February parent Coffee with the Counselors focused on how to build a strong educational foundation for learning at home. If you are interested in learning more about the topic discussed, handouts are available in the Family Learning Center.

In March’s parent Coffee with the Counselors we will discuss, focus and self-control. We hope to see you there.

Remember if you have any questions or concerns about your students please feel free to call or email us at any time. We are here to support you and your child.

Stacey Coleman (grades K, 2, 4, 6): (703) 866-2940 scoleman@fcps.edu
Anne Lee (grades 1, 3, 5): (703) 866-2940 aslee2@fcps.edu

Technology Tip

Beginning the week of March 7th, the STEAM room (computer lab) will be open 4:30-5:30 on Tuesdays and Thursdays for the purpose of SOL practice for students (grades 3-6) and their parents. Students must have a parent with them in the lab. Watch for more information.
