Dear Students,

Robinson is dedicated to utilizing students’ personal electronic devices in positive ways in classrooms. Each student is expected to use their electronics in accordance with County and school policy. We encourage students to share their knowledge of useful applications and programs with teachers, students and other staff so that we can all grow as a community of learners. A form will be available at [http://www.fcps.edu/RobinsonSS/byod/byod.html](http://www.fcps.edu/RobinsonSS/byod/byod.html) to promote sharing of great apps!

To help guide students with acceptable use, the school has developed a color-coded zone policy. Each space is identified by a color zone that applies to all electronic devices (including, but not limited to, smartphones, laptop computers, netbooks/chromebooks, tablets, electronic readers, i-Touch, iPod):

If a zone is RED, use of electronic devices is prohibited. Red zones include PE locker rooms, bathrooms and any testing area.

If a zone is YELLOW, electronic devices may be used with teacher discretion (the teacher has the freedom to decide what should be done with devices in the classroom). When the student enters the classroom, the device is out of sight and silent unless specified by the teacher for instructional use. No phone calls are allowed during school hours.

If a zone is GREEN, electronic devices are permitted. No phone calls are allowed during school hours. Please be careful when texting while walking in the hallways.

Reminders from SR & R:

- Students using personally owned electronic devices must follow the policy stated in SR&R while on school property, attending school-sponsored activities, or using the FCPS network.

- FCPS is not responsible for any device or data loss, theft, damage or other associated costs of replacement or repair as a result of a student participating in the BYOD initiative.

- Students using a personally owned device with a wireless connection are only permitted to connect to the FCPS Wi-Fi network (not private cellular service) while on FCPS property.

Respectfully,

Robinson’s BYOD Focus Group
