BACK TO SCHOOL NIGHTS

Please mark your calendar for the upcoming back to school nights. We look forward to seeing you!

September 29 - Back to School Night for Preschool - 2nd Grade
September 30 - Back to School Night for Grades 3-6

EARLY DISMISSALS

When planning early dismissals for your student, please plan on picking up your student by 3:00. We try not to do dismissals the last 15 minutes of the school day, except in the case of an emergency. This ensures that students are able to pack up and receive last minute instructions from their teacher, and that we are able to safely dismiss all of our students. In addition, the parking lot is closed off to car traffic from 3:05-3:25 each day in preparation for dismissal.

PARENT SIS ACCOUNTS (NEW IN 2015-2016)

SIS (Student Information System) is the system used by FCPS to register students, manage student information, and assign grades. This year parents are able to have their own accounts, which enables you to update your information as needed. This account also automatically connects to your Parent View Blackboard account which enables you to view teacher websites for announcements and assignments. Parents who previously used a Parent View Blackboard account must still register for a SIS Parent Account to continue to access Blackboard.

Parents are sent a letter that contains their activation key, instructions and the URL for creating their account. Parents with multiple students in FCPS only need one SIS Parent Account. It is very important that parents activate their accounts promptly after receiving their letter since the activation key has an expiration date.

If you (parent) have lost your activation letter or the activation key has expired, you can call the school and a new activation letter will be generated and sent home in your child’s backpack.

If you have already completed account activation, but have forgotten your username, it should be the email address you used to register. If you forgot your password, click the Forgot Password link to recover/reset your password.
